

PRACTICE ABSTRACT # 16

BIOSECURE Podcast

BIOSECURE podcasts are quarterly episodes where listeners get to know the latest in biosecurity as well as related practices and reflections.

These podcasts are created to communicate and disseminate biosecurity knowledge within the project but also biosecurity in general.

Objective:

The podcast series focuses on biosecurity in animal production around the globe as a tool to safeguard animal and human health. It aims to empower listeners with the knowledge of biosecurity measures and discuss challenges within the veterinary field.

Guests / Expert Interviews:

In each episode, experts from within or outside the BIOSECURE consortium are invited to talk about their expertise and certain biosecurity aspect. The experts shed light on the issues and insights related to ongoing diseases, preventive measures as well as success stories of "biosecurity champions", a segment within these podcasts to keep it entertaining and light for listeners.

Interaction and Communication:

Listeners can interact via comments after each episode and ask any questions. These episodes are published on the BIOSECURE website, social media (X, LinkedIn) as well as the official [Spotify channel](#) of the project.

The podcasts are meant to create a community for promoting biosecurity knowledge and to raise awareness among listeners about the importance of biosecurity measures.

In addition, this podcast will also give updates on the progress of the BIOSECURE project so listeners are up-to-date with the latest milestones.
